EDUCATION

BCA (2024 – 2026) – Pursuing
MM Ghodasara College,
Junagadh

TECHNICAL SKILLS

Backend

- Node.js
- Express.js
- PostgreSQL
- REST API
- JWT Authentication

Tools

- Git & GitHub
- Postman
- JWT
- bcrypt

Frontend(basic)

- HTML
- CSS
- JavaScript
- React.js

SOFT SKILLS

- Communication
- Teamwork
- Problem-Solving
- Time Management

ABOUT ME

Backend Developer (Fresher) skilled in Node.js, Express, and REST API development. Experienced in building secure and scalable backend systems with database integration. Passionate about learning and contributing to real-world projects.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

Alpro Interbiz – Web Development Intern (1 Month Internship)

- Worked as a Web Development Intern for 1 month at Alpro Interbiz.
- Assisted in developing and maintaining web applications using modern web technologies.
- Gained hands-on experience in frontend/backend development and real-world project workflow.
- Collaborated with team members to complete assigned tasks within deadlines.

Tech Rover Solutions | Junagadh, Gujarat | DEC 2025– FEB 2026

Full Stack Developer Intern (Backend Focus)

- Developed and tested RESTful APIs for real-world use cases using Node.js and Express
- Built and optimized CRUD operations with PostgreSQL database
- Used Postman for API testing and debugging
- Collaborated on frontend integration using React

PROJECTS

Online Ticket Booking System

- Built a full-stack Cricket Stadium Ticket Booking System using Node.js, Express, and PostgreSQL
- Implemented JWT authentication & role-based access control
- Designed APIs for seat booking, event management, and user handling
- Integrated secure password hashing using bcrypt
- Handled error handling and validation for robust backend
- Connected backend with React frontend for real-time booking flow
